HUGO ELIEZER TREJO

(+52) 33-35-97-63-98 hugo.trejo02@gmail.com linkedin.com/in/hugo-eliezer-trejo github.com/HugoTrejo13

PROFESSIONAL SUMMARY

Computer Science Engineering student who thrives in fast-paced, cross-functional teams. A clear communicator and active listener, quick to build trust with technical and non-technical stakeholders alike. Proactive and adaptable, taking full ownership of every task from kickoff to delivery and keeping things moving when plans change. Naturally curious, with a growth mindset and a clear goal of becoming a software engineer.

EDUCATION

Universidad de Guadalajara – CUTONALA **2024 – 2027**
Bachelor of Science in Computer Science Engineering *Guadalajara, Jalisco, Mexico*

- GPA: 94.13/100 · 6th Semester · Expected: December 2027

PROFESSIONAL EXPERIENCE

iNBest **July 2025 – May 2026**
Project Management Office (PMO) Intern *Guadalajara, Jalisco, Mexico · On-site / Remote*

- Prototyped a Power Automate flow syncing MS Project schedules into Azure DevOps (SharePoint-hosted Excel staging with duplicate prevention) to eliminate manual double entry between PM tools.
- Structured Azure DevOps backlogs (epics, features, user stories with acceptance criteria, iterations, baselines) via bulk imports from Excel, and built tag-based query dashboards to monitor team capacity.
- Managed delivery of 8+ concurrent client projects across 4 teams (UX-to-code web apps, cloud migrations, Power BI/Fabric dashboards, an internal Azure CRM), from kickoff and requirements sessions to sprint closure sign-off.
- Led team dailies and weekly capacity planning, and produced AI-assisted meeting minutes, weekly status reports, change requests, and ISO-compliant documentation for clients and leadership.

Mr. CD **May 2023 – September 2023**
Sales Associate & Customer Service *Guadalajara, Jalisco, Mexico*

- Advised customers on musical instrument selection, providing technical guidance and personalized recommendations that contributed directly to department sales.
- Operated the company's point-of-sale and inventory management software for transaction processing, stock tracking, and daily reporting.

PROJECTS & ACHIEVEMENTS

MonPoint: POS Monolith to Microservices | *Java, Spring Boot, Spring Security, RabbitMQ, MongoDB* **Aug 2026 – Present**

- Built a stateless auth microservice (Spring Security, JWT, RBAC) and an event-driven reporting service that consumes RabbitMQ sales and inventory events into MongoDB, both registered in Eureka behind an API Gateway.

HPE Stock Rotation Automation | *Excel VBA, SAP S/4HANA* **May 2026**

- Top 6 Finalist, HPE Innovation Challenge 2026: built a VBA tool that parses SAP S/4HANA reports (VA05, VF05) to compute CAP balances for AMS-region distributors, cutting a 5-hour manual workflow to under 3 minutes (97% faster).

TECHNICAL SKILLS

Languages: Java, Python, SQL
Frameworks & APIs: Spring Boot, Spring Security, Spring Cloud (Eureka, Gateway), REST APIs, Flask/FastAPI
Databases: MySQL, MariaDB, MongoDB, PostgreSQL
Cloud & Infrastructure: AWS, Azure, Docker, Git, GitHub, Linux
Project & Data Tools: Azure DevOps, Microsoft Project, SharePoint, Power Automate, Power BI
Developer Tools: VS Code, IntelliJ IDEA, Postman, Maven, Claude Code, Gemini, Codex
Methodologies: Agile, Scrum, PMO Governance, Change Management, Sprint Planning

CERTIFICATIONS

AWS Certified Cloud Practitioner · Valid through Feb 2029 *Amazon Web Services*
MongoDB Java Developer Path · In Progress, Est. Dec 2026 *MongoDB University*
Master Microservices with Spring Boot and Spring Cloud · In Progress, Est. Dec 2026 *Udemy*
Scrum Fundamentals Certified (SFC) *SCRUMstudy*
Claude Code in Action (AI Developer Tools) *Anthropic*
Google Prompting Essentials (Specialization) · Completed Jun 2026 *Google*
